PROFESSIONAL SUMMARY

Registered Medical Laboratory Technician (AHPC) with over three years of hands-on diagnostic experience across six healthcare facilities in Kampala, consistently achieving 99.7% accuracy in reporting and documentation. Deeply committed to patient dignity, data confidentiality, and laboratory quality standards. Alongside clinical practice, I actively explore technology — building personal projects in mobile development (Flutter/Dart), Python, and web technologies with the aid of modern AI tools. Currently developing the CBC Analyser, a diagnostic data system designed specifically for Ugandan clinics.

PROFESSIONAL EXPERIENCE

Laboratory Technician *Dec 2023 – Present*
Essential Communications LTD – Travel Agency Testing Centre · Ntinda, Kampala

- Perform routine lab tests on blood, urine & swabs for travel health certifications
- Manage high-volume data entry using Excel & Access with 99.7% accuracy
- Apply cybersecurity principles to ensure confidential patient data handling
- Liaise with clinicians and stakeholders to communicate laboratory results

Laboratory Technician (Part-Time) *Current*
Lanta Medical Centre · Kiteezi, Kampala

- Sample collection, preparation, and diagnostic testing on biological specimens
- Maintain accurate patient records and laboratory reports
- Follow biosafety and infection prevention procedures

Data Analyst *Jun 2023 – Dec 2023*
Naguru Community Health Project · Kampala

- Designed and managed data systems for community health screening programmes
- Improved laboratory dataset accuracy by 30% through structured validation
- Mentored field workers on data interpretation and secure data management

Technical Support Specialist (Freelance) *2023 – 2025*
Remote

- Provided technical support for database and system issues
- Applied cybersecurity principles in troubleshooting and system support

Laboratory Technician *2021 – 2022*
Glory of Christ Medical Centre · Kawaala, Kampala

- Conducted diagnostics in haematology, microbiology, and clinical chemistry
- Maintained 99.7% accuracy in test results, documentation, and reporting
- Collaborated with healthcare teams for timely result interpretation

PROFESSIONAL REGISTRATION

Registered Medical Laboratory Technician
Allied Health Professionals Council (AHPC)
Reg. No: AHPC2026678445
Annual Practising Licence (APL) — Applied, awaiting collection

EDUCATION

Diploma in Medical Laboratory Technology
Nsambya Medical Laboratory Training School
2021 · CGPA: 3.87

Uganda Advanced Certificate of Education
Kyambogo College School, Kampala
2015

Uganda Certificate of Education
St. Joseph's College Layibi, Gulu
2013 · Division I

CERTIFICATIONS

BD Phlebotomy	BD & Co.	2018
Intermediate Python	DataQuest	2019
Data Science Bootcamp	DataMites/IABAC	2023
Intro to Cybersecurity	Cisco	2024
ISC2 CC	ISC2	In Progress
Data Analytics Essentials	Cisco	In Progress

MEDICAL LAB SKILLS

- Phlebotomy & Venepuncture (BD Certified)
- Haematology & Blood Analysis
- Blood Banking & Immunohaematology
- ABO/Rh Typing & Cross-Matching
- Microbiology & Clinical Chemistry
- Laboratory Quality Control
- EHR Systems & Diagnostic Reporting

ADDITIONAL PART-TIME ROLES

JWK Hospital (Namere) · Good Day Clinic (Naguru) · Doctore Clinic (Busega) — each 1 month. Performed sample testing, maintained lab documentation, ensured biosafety compliance, and supported clinicians with timely results.

VOLUNTEER & INTERNSHIP

Volunteer Lab Technician 2018 – 2021 (Holidays)

Kyambogo University Medical Centre · Kampala

- Assisted in sample analysis, quality control, and health records management

Lab Technician Intern During Diploma Training

St. Francis Hospital Nsambya · Kampala

- Routine diagnostics in haematology, microbiology, and clinical chemistry

Lab Technician Intern 1 Month Attachment

Gombe General Hospital · Uganda

- Diagnostic tests, staining procedures, microscopic examination, and QC

PERSONAL & LEARNING PROJECTS

Remindra — Birthday Reminder Android App (Prototype · Personal Use)

Flutter / Dart · Firebase · Google Play Store · remindra-bc8e5.web.app

- Personal Android app with smart birthday reminders, cloud sync, and dark/light mode
- Published on Google Play Store with its own website, privacy policy, and terms of use
- Built as a learning project using Flutter/Dart with AI-assisted development

CBC Analyser — Diagnostic Data System (In Progress)

Python · R · Go · SQLite · Machine Learning

- Designing a CBC Analyser for Ugandan clinics with ML-generated local reference ranges
- Aims to replace Western haematological reference values with Uganda-specific baselines
- AI-assisted development; deepening skills in health informatics and database design

Menstrual Health Tracker (Learning Project)

TypeScript · React · Python · Go · Tailwind CSS · Drizzle ORM

- Full-stack health tracking application exploring client/server architecture
- Built to develop skills in TypeScript, REST APIs, and modern web development

Tree Data Structures Visualiser (Learning Project)

Python · TypeScript · SQLite

- Interactive tool for visualising and traversing tree data structures
- Implements binary search, depth-first, and breadth-first search algorithms

Note: All personal projects are developed with AI assistance as part of my ongoing self-directed learning in software development.

- Infection Prevention & Biosafety
- Patient Data Confidentiality

TECH SKILLS

Languages & Frameworks

- Python (intermediate)
- Flutter / Dart (beginner)
- TypeScript / JavaScript (beginner)
- SQL & SQLite
- R — statistical analysis
- Go — basic audit logging
- HTML, CSS, Tailwind CSS

Tools & Platforms

- Microsoft Excel & Access
- Git & GitHub
- Firebase (hosting & auth)
- Google Play Console
- AI-assisted development

KEY COMPETENCIES

- Analytical problem-solving
- Strong attention to detail
- Teamwork & collaboration
- Adaptability
- Leadership & organisation
- Self-directed learning

LANGUAGES

English — Proficient

Luganda — Excellent

Acholi — Native

I, Musasa Christopher, declare that the information provided above is true and accurate to the best of my knowledge.
